Course Description

Taught by Candler Old Testament professor Ryan Bonfiglio, this four-week course examines the relationship between science and faith. Rather than seeing them as bitter rivals, the course provides a framework for understanding how science and faith can relate to one another on more friendly terms. Topics addressed include creationism and the Big Bang, evolution, and miracles.

**Session 1: Introduction to the Course**
*Watch Video*

**Session 2: Love and Quasars**
*Watch Video*

**Session 3: Evolving Monkeys and Noah's Dinosaurs**
*Watch Video*

**Session 4: Do You Believe in Miracles?**
*Watch Video*

**Session 5: A Dialogue with Physicists**
*Watch Video*
