Wilderness Wanderings
Instructors: Dr. Ryan Bonfiglio and Dr. Quincy Brown

Course Description

This 4-week course explores the story of Israel’s 40 years of wandering in the wilderness. During this time, Israel finds itself in a crucial moment of transition. Egypt is behind them, but the Promised Land is not yet in view. The waters of the Red Sea have been parted, but discord, doubt, and fear threaten to tear apart their community. Who would lead them? How should they pursue justice and solve conflict? Where should they look for truth and guidance?
